

## TAX LAW SUITS TAFT

He Says Amendment is Not Necessary

### NO DANGER PUBLICITY

He Would Not Have the Publicity Feature Eliminated—All the Information Given Will Be Carefully Guarded.

Washington, Feb. 4.—President Taft yesterday announced that he did not consider an amendment to the corporation tax law necessary in order to prevent rival concerns from obtaining information as to the private affairs of competitors. This statement was called out by a visit from S. C. Mead, secretary of the Merchants' association of New York, who asked that the publicity feature of the law be eliminated. Mr. Mead alleged that many manufacturers thought their business would be harmed by the exposure of their private affairs to competitors, but President Taft said that the law did not contemplate this. He added, however, that it was necessary for the government to have access to the books, etc., of the various corporations, but that the information thus gained would be treated as confidential. He thought sufficient protection could be given to manufacturers by a discreet administration of the law, and he said he would take this matter up with Attorney General Wickham and Secretary of the Treasury MacVeagh.

### Verrees May Be Counsel

John J. Verrees of Nashville, a leader of the Tennessee bar, a Democrat and a warm personal friend of President Taft, has been asked to take charge of the case for the defense in the Pinchot-Ballinger congressional investigation and is now on his way to Washington to consult with Attorney General Wickham and officials of the land office. Mr. Verrees probably also will confer with President Taft. Mr. Verrees has not signified his acceptance of the offer to act as counsel either for Land Commissioner Dennett or H. Schwartz, chief of the field service, both of whom are accused, with Secretary Ballinger, by Louis B. Glavis. A strong effort will be made to have him take up the case.

### Lively Debate in Senate

The Senate was in session four hours yesterday, devoting most of the day to consideration of the postal savings bank bill. An effort by Senator Carter, in charge of the bill to fix a day for a vote next week, failed because Senator Haysburn, one of the opponents of the measure, objected to the unanimous consent.

A lively debate occurred, growing out of resolutions looking to the investigation of the cause of high prices. Senator Lodge of Massachusetts had reported favorably from the finance committee a resolution he introduced Wednesday, authorizing the investigation. McCumber, the author of a similar resolution, asked that his measure be withdrawn from the committee on agriculture and referred to the committee on audit and control of contingent expenses, to which Senator Lodge's resolution was referred finally, after being reported from the finance committee. This moved Senator Stone to inquire what had become of Senator Elkins' resolution on the same subject, which had been referred to the committee on audit and control of contingent expenses about a month ago.

This suggestion called Elkins into action. He criticized the Republican leaders for trying to stifle an investigation into whether the tariff had affected prices. Senators Lodge and Aldrich re-

## For Your Hair

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "99" Hair Tonic has grown hair on heads that were once bald. Of course, it is understood that in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.

When Rexall "99" Hair Tonic will do as above stated, it is not strange that we have such great faith in it and that we claim it will prevent baldness when used in time. It acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "99" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, simply come back and tell us and without question or formality we will hand back to you every penny you paid us for it.

We lend our endorsement to Rexall "99" Hair Tonic and sell it on this guarantee, because we believe it is the best hair tonic ever discovered. It comes in two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store—The Rexall Store, Red Cross Pharmacy, Burt H. Wells, proprietor.

## INDIGESTION GOES IN FIVE MINUTES

All Distress from Heartburn, Gas, Dyspepsia and Other Stomach Misery Vanishes After Taking a Little Diapepsin.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave you sufficient about the house in case someone else in the family may suffer from stomach trouble or indigestion. Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why dyspeptic troubles of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and preserve for assimilation into the blood all the food you eat, besides, it makes you go to the table with a healthy appetite; but, what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

Healed the suggestion, while Bailey declared that the finance committee did not want Elkins to conduct the inquiry, because they feared he would bring in the tariff question. Lodge complimented Aldrich on the facility with which the finance committee could report a resolution over night, while the committee on audit and control required a month. Thereupon, he introduced his resolution and referred it to the finance committee. The debate was finally declared out of order by Gallinger, who was sustained by the vice-president.

A short executive session was held and two minor nominations confirmed, after which the Senate adjourned until to-day.

### HILLES MAY GO TO NEW YORK.

President Taft anxious that He Become Surveyor of the Port.

Washington, Feb. 4.—Assistant Secretary of the Treasury Hilles, who has been urged to succeed General Clarkson as surveyor of the port of New York, yesterday had a long talk with President Taft. Mr. Hilles, it is understood, told the president that he preferred to remain in his present position, in which he was deeply interested. It is said, however, that Mr. Hilles may be prevailed upon to take the place. The president has said that he was anxious to get a young man for surveyor to hold up the hands of Collector Losh and to assist him energetically in the work he has undertaken.

### FAVORS SUBSIDY BILL.

House Committee on the Merchant Marine Approves.

Washington, Feb. 4.—The House committee on the merchant marine yesterday ordered a favorable report on the administration's subsidy bill by a vote of 10 to 7.

### SEND ROOSEVELT,

Suggests Lieut. Peary, to Lead South Pole Dash.

Washington, D. C., Feb. 4.—Commander Peary referred to Col. Roosevelt yesterday in connection with the proposed antarctic expedition in a way to indicate that he believed Roosevelt should be chosen to lead the venture, which has for its object the discovery of the south pole. Peary spoke of Roosevelt as being familiar with the situation confronting antarctic explorers and gave him credit for sympathy with the proposed movement. But he declined to say whether he meant that he would like to see Roosevelt at the head of the expedition. Peary made it clear that he himself would not take part in it.

In this connection, he said that he could not interfere with any inference drawn as to whether Roosevelt would lead such a movement and added that he was not authorized or entitled to select a leader and that all he could say was that he, Peary, would not lead it.

### JUDGE HUTCHINSON BETTER.

Randolph Man Run Down in Washington by an Automobile.

Washington, D. C., Feb. 4.—Judge Hutchinson of Randolph, who recently sustained a fractured hip and other injuries by being run down on the sidewalk by a child's automobile, is making a much better recovery than was at first expected. He has recovered well from the shock and bruises, but the fracture is one that a person of his advanced age seldom wholly recovers from.

## MEAT STILL ON THE RISE

Prices Going Up Despite the Boycott

### THE BIG DEALERS ADMIT

A Large Reduction in Receipts—Shipments Curtailed by Packing Houses. Wages and Prices to Be Taken up in Senate Inquiry.

New York, Feb. 4.—Meat was still on the rise in the local markets yesterday. Boycott or not, prices continue to advance over the lowered rates prevailing the latter part of last week, and now approximate the figures quoted before the beginning of the anti-meat movement. This movement showed no signs of abatement yesterday. Retailers in many sections of the city, especially the poorer quarters, reported a falling off in sales of from one-third to one-half. This is in line with the recent hints from Chicago that prices would not stay long below the previous ruling high mark as curtailment was relied upon to lessen supply and adjust it to the reduced demand. Big dealers here admitted yesterday for the first time the receipts were heavily reduced. The retailers have been encouraged to maintain prices, and consumers now are getting little direct benefit from the agitation.

The Hudson county (N. J.) grand jury yesterday took up the inspection of the big cold storage plants. The visits will be continued until all have been looked into. Meanwhile additional subpoenas have been issued for packing company employees, and Judge Swayze of the New Jersey supreme court has announced that he will summon the jury to his court and charge it as to its duty. The jury is trying to find out whether there is an agreement between the big warehouses to hold back supplies and maintain high prices.

### HENS LAYING SMALL EGGS.

Dr. Wiley Gets on a New Tack at Pure Food Hearing.

Washington, Feb. 4.—Dr. Harvey W. Wiley intimated at a pure food hearing Wednesday that the American hen is in league with the boosters of the cost of living by laying eggs which are too small. But the chief of the bureau of chemistry declared it is not the hen's fault, because she was being lured for commercial purposes to lay smaller eggs and more of them. A hen's egg-producing capacity was limited, the doctor said, and she could produce only so much egg though it may be in large or small installments. The little discourse on the capacity of a hen was an aside in a discussion on what the size of a loaf of bread should be in the District of Columbia.

### NEW CHARGE AGAINST BOYCOTT.

Paterson, N. J., Man Blames It for All His Marital Woes.

New York, Feb. 4.—The meat boycott is blamed for the marital woes of Samuel Barmore, who, arraigned in the Paterson, N. J., police court yesterday, told Recorder Carroll that he had raised a rumpus because his wife would not buy meat.

"My wife is in favor of reducing meat prices," said the prisoner, "and she started this boycott business on me in December. Since then I've lived on all sorts of patented goods, and I'm tired of being confronted by a vegetable garden on the table every night. I hold her I'd get a divorce unless she gave me some meat, but she won't listen."

Sentence was suspended on Barmore on the charge of disorderly conduct.

### WAYS ARE GREASED.

Lodge's Resolution for Food Price Inquiry Slips Along Fast.

Washington, Feb. 4.—The Senate ways appear to be greased for Senator Lodge's resolution, introduced Wednesday, to investigate high prices of foods and related subjects. Mr. Lodge submitted

## NEW WARRINER SENSATIONS

Big Four Man Says He Paid Many Rebates

### LEGALITY IS IN DOUBT

He Swears That His Predecessor Was "Short"—Declares Also That He Paid the Cooke Family \$84,000.

Cincinnati, Feb. 4.—Charles L. Warriner, yesterday testified under oath that Frank D. Connelley, his predecessor, as local treasurer of the Big Four railway, was short \$10,500 when Warriner succeeded him. "I assumed that shortage as part of my own," said Warriner.

Warriner also testified that as treasurer for the Big Four he had paid many rebates. Asked if any of them were illegal, he replied: "I don't know."

Warriner testified Wednesday that between \$85,000 and \$100,000 of the \$543,000 he stole was paid to Edgar S. Cooke and family of Chicago. Warriner rendered his statement the more startling by declaring that, as far as he knew, Mrs. Ford had been unaware of his shortage, the \$1,000 a month he testified to having given her for seven years being paid to obtain her silence as to a shortage of Cooke's.

## 6,617,155 ALIENS IN SEVEN YEARS

And 70 Per Cent. of the Immigrants Came from Southern Europe and Western Asia.

Washington, Feb. 3.—Interesting comparative facts are disclosed in a study of the immigration to the United States for the seven years ended June 30 last, during which time 6,617,155 aliens were admitted, more than 70 per cent. of whom came from southern and eastern Europe and western Asia, composed largely of southern Italians, Greeks, Hungarians, Hebrews, Romanians, Slavs, Bulgarians, Turks, Armenians, and Syrians.

The addition to the population in those seven years was more than a million greater than the total population of the New England states, according to the census of 1900—5,392,017; nearly a million more than the combined population of California, Oregon, Washington, Idaho, Nevada, Arizona, New Mexico, Utah, Colorado, Wyoming, Montana, the two Dakotas, and Nebraska—5,878,735; and somewhat in excess of that of Florida, Alabama, Mississippi, Louisiana, and Arkansas—6,691,608.

### MUSUDA CRACK ATHLETE.

Japanese Student at Harvard Makes Good Record in Gymnasium Test.

Mongolian athletes are certainly coming to the front very rapidly of late. Within the last few months three have shown prominently in the sporting world. Kao Chow Li, the Chinese student at Harvard, gives great promise of developing into a crack sprinter and high jumper.

En Sue, another Chinese man in Honolulu, has been burning up the cinder path with his great speed. Coupled with this is the all around athletic ability of Musuda, the Jap at Harvard university. Members of the University of Wisconsin baseball team which made the trip to the orient last summer and which was beaten by the Kelo university team say that the Flowery Kingdom has any number of crack baseball tossers.

For the last five years there has been an annual novice gymnastic meet at Harvard for the benefit of those men who on account of their class in the university are unable to compete for the gym team and for those who are

What do you know about it? Is it going to be held or not? Stallers? Dopesters? Pickers? Eh?

STAR RUNNERS TO MEET.

Cracks of World Will Try For Honor in New York Feb. 14.

The greatest professional foot race ever put on in this country will take place at Madison Square Garden, New York, Feb. 14. Eight of the speediest middle distance men in the world will come together in a fifteen mile race, in which a special prize will be offered for the breaking of the indoor record for that distance.

From a field of at least a hundred applicants the following men have been selected to start: Alfred Shrub, the English speed marvel; Hans Holmer, the Canadian Marathon runner, who has come to the front very rapidly during the past year by defeating such men as St. Ives, Marsh, Hayes and Longboat; Aceose, the western Canadian Indian wonder; Charley Moore, the New York crack; Jim Crowley, who recently turned professional and will have his first try at the professional game; Jungsstrom, the Swedish champion; Tom McKee's Indian, Redhawk, and Fred Mendows, the Canadian who recently defeated Shrub.

Want Three Cornered Race.

Graduate Manager Victor Zednick of the University of Washington recently announced he had opened negotiations with the athletic management at the University of Wisconsin for a triangular race between the eight oared crews of the University of Washington, the University of Wisconsin and an eastern school. Manager Zednick purposes to hold the race on Lake Mendota at Madison in the spring.

FUTURE SPORT EVENTS.

Omaha, Neb., will hold a big indoor track meet March 15.

Canadian curlers have been asked to compete at Switzerland in March.

Bill Lange, the Australian heavyweight champion, is expected to arrive in San Francisco Feb. 15.
